

# DEEP RED II FAIRWAYS

## FEATURE

- Low & Deep Weighting
- Optimised Weighting
- Performance Fit Clubs
  - .350 Tip Grafalloy ProLite +
  - .428 Tip Grafalloy ProLite + FatShaft
- Low Profile Progressive Face

## BENEFIT

- Back weight pad moves up to 18 grams low and deep - 5 additional grams or 40% MORE than original Deep Red. Promotes easier ball flight with optimal trajectory.
- Promotes higher ball flight and greater forgiveness on off-centre hits. Optimal trajectory, straighter ball flight and greater accuracy. Low and Deep CENTRE weighting for distance and shot-shaping workability. Weight is optimised low and deep centre for optimal trajectory and extra distance..
- (2) models and shafts to fit a player's profile.
  - TOUR - For the player who prefers a more traditional standard .350 tip shaft for a lower, more boring ball flight.
  - DISTANCE - Wilson's proprietary .428 tip Grafalloy ProLite+ FatShaft for a super low torque shaft, providing ultimate control, distance and accuracy..
- Shallow face promotes higher launch angle to get the ball up and out easier. Progressive head design makes them easier to play out of deep rough conditions without the tendency for shots to pop up.

## OPTIONS

RH: #3-13°, # 3-15°, # 5-18°, # 7-21°  
LH: #3-15°, # 5-18°, # 7-21°

## SHAFTS

TOUR: A, R, S  
DISTANCE: L,A,R,S
