

# DEEP RED II TOUR

## FEATURE

- Low & Deep Weighting
- Optimised Weighting
- Performance Fit Clubs - Tour Model - 350 cc
- .830 COR Face

## BENEFIT

- Back weight pad moves up to 18 grams low and deep - 5 additional grams or 40% MORE than original Deep Red. Promotes easier ball flight with optimal trajectory.
- Promotes higher ball flight and greater forgiveness on off-centre hits. Optimal trajectory, straighter ball flight and greater accuracy. Tour model features Low and Deep CENTRE weighting for distance and shot-shaping workability. Weight is optimised low and deep centre for optimal trajectory and extra distance..
- Heads and Shafts to fit a player's profile. For the player who prefers a more traditional sized head and standard .350 tip Grafalloy ProLite+ shaft for a lower, more boring ball flight.
- Utilising ultra-thin Beta-titanium material in the face, Wilson has created the hottest drivers allowable by the USGA and R&A (.830).

## OPTIONS

RH: 7.5°, 9°, 10.5°  
LH: 9°, 10.5°
